A Timely Thought

A membership in the Friends of Salt Springs Park might be just the gift that hard-to-please someone will relish all year.

Each of our 350 members knows the park is a special place, supported by a group of dedicated volunteers who are committed to maintaining the park's natural beauty. We teach children about the natural environment, adults about photography, and the community about its history.

Memberships help support the upkeep of 12.5 miles of trails, picnic areas, buildings, and more.

We have a variety of memberships. You can find an application at <http://www.friendsofsaltspringspark.org/html/form.pdf>. Of course, if you're already a member, won't you please consider making a donation? We'll put it to good use. http://www.friendsofsaltspringspark.org/html/donate_form.pdf.

Two Special Thank You's

Every December at least one member of the Board of Directors steps down because of term limits. This year it is two—President John Miskell and Vice-President Lillian Theophanis.

John became President in January 2006. Over the years he's painted walls, sawn up downed trees, and dealt with numerous other facilities maintenance issues. John and his wife Marian coordinated the food tent for the annual Celebration and served regularly as weekend hosts—both of which they will continue to do next year.

Although the cabins are unheated, some people prefer to stay here during the winter. No insects, few people, and spectacular winter scenes draw winter campers, hunters, and hikers. Salt Springs Park is open every day of the year, sun up to sundown.

Lillian became Vice-President in January 2006. Lillian has helped us handle many environmental issues, like proper permitting needs and procedures, worked on several grant applications, and served on a number of committees. She was a member of the Environmental Education Committee even before she joined the Board, and she plans to remain a very active member.

Thank you both.
